ABOUT US

At Johnstone’s Trade we are committed to progressing product performance. We specialise in meeting the needs of trade decorators and specifiers who care about their work, demand high quality and believe in the best possible results.

We are proud to offer a comprehensive range of high performance trade paints, woodcare products and performance coatings. Working hand in hand with our customers and our global R&D teams to provide new & technically advanced products.

We pride ourselves in going above and beyond to ensure we exceed your expectations.
ABOUT COLOUR

Johnstone’s is proud to say that when it comes to colour, we’ve well and truly got it covered. Our advanced tinting system means that over 16,000 colours are available in almost all of our market-leading products.

Our colour selection is constantly monitored and updated so that we are accurately reflecting market trends and providing customers with the colours that they want.

We have a wide range of colour collateral designed to ensure that the selection of colour is easier than ever before, ranging from our brand new colour guide, RAL, NCS and BS4800 fan decks and our innovative smart phone app.

Log on to the Johnstone’s ColourBox virtual room painter tool at www.johnstonestrade.com/colourbox to trial from thousands of colours in the Johnstone’s colour palette on a room or project.
Johnstone’s has long been committed to protecting the environment and nowhere has this been more ably demonstrated than with the Ecological Solutions range.

The range hosts products that have had their environmental credentials independently tested and verified and now boast the coveted EU Ecolabel Accreditation.

All of the products within the range maintain the same high quality and performance decorators have become accustomed to over the years. With no price premium attached you can rest assured that you are helping the environment, and at the same great value as before.
PPG Extra is a comprehensive package of advisory and consultancy services that has been developed to assist PPG’s customers in addressing ever-increasing legislative, technical, aesthetic and environmental demands.

- **Technical** – You can rely on us
- **Training** – High sense of worth in all we do
- **Support** – A spirit of familiarity and closeness
- **Colour** – Tailored colour schemes and advice
- **Specification** – Open and accountable

If you have any queries or require technical information on any of our Johnstone’s products, visit our Advice page at www.johnstonestrade.com/advice or contact the PPG Extra Team on 01924 354354.
ABOUT OUR SPONSORSHIP

Our title sponsorship began in September 2006 and since then the Johnstone’s Paint Trophy has given sides from the Football League the chance to experience the highs and lows of a classic knock-out tournament.

As a result, fans from across the country now have colourful memories from the beautiful game thanks to Johnstone’s.

The tournament features all 48 clubs from League One and League Two and is split into northern and southern regional sections – creating a pot full of spine-tingling derbies.

Each Johnstone’s Paint Trophy Season culminates with a final hosted at Wembley Stadium, an event which firmly cements in the memory of all Johnstone’s Paint Trophy fans.
WALL & CEILING PRODUCTS

The selection and application of products for walls and ceilings on any project is a critical success factor and that’s why Johnstone’s is proud to offer you an unrivalled range from which to choose.

Leading this category is Johnstone’s Covaplas Vinyl Matt, which has been improved to provide a longer wet edge time to reduce problems with flashing and will provide a finish with excellent opacity and coverage. Johnstone’s Covaplas Vinyl Matt is available in over 16,000 colours as part of the advanced Johnstone’s tinting system, making it an integral product that has been transforming homes and work environments for years.

Covaplas Vinyl Matt is supported by a wide range of other wall and ceiling products that can turn even the most uninspiring space into one brimming with colour and vibrancy; products include Flat Matt, Acrylic Durable Matt, Soft Sheen, Vinyl Silk and Acrylic Durable Eggshell.

PROJECT: Crown Hills Community College, Leicester
Crown Hills Community College, which has 1,200 students, was given a makeover in the school’s corporate colours, with the work being carried out over an eight-month period.

### Traffic Guide Explained

**Low Traffic**: General application in areas with low footfall such as a living room and bedrooms.

**Medium Traffic**: General application in areas with medium footfall such as halls, stairs, landings, school classrooms, offices, and small retail outlets.

**High Traffic**: General application in areas with high footfall such as school hallways, corridors, stairwells and busy retail environments.

**Very High Traffic**: General application in areas with very high footfall such as football stadiums, airports and large retail shopping complexes.
**Covaplus Vinyl Matt**

A premium matt emulsion paint with a longer wet edge time to reduce flashing issues.

**Product Guide**
- **Finish:** Matt
- **Colour:** 16,000 available
- **Pack size:** 1Ltr, 2.5Ltr, 5Ltr & 10Ltr
- **Type:** Water Based

**Key Benefit**
A general purpose vinyl matt emulsion with excellent opacity and coverage.

---

**Flat Matt**

A premium matt emulsion paint which provides a fashionable dead flat matt finish.

**Product Guide**
- **Finish:** Flat Matt
- **Colour:** 16,000 available
- **Pack size:** 2.5Ltr & 5Ltr
- **Type:** Water Based

**Key Benefit**
A fashionable dead flat matt finish.
Endura Super Durable Matt

The ultimate matt emulsion offering outstanding durability for very high traffic environments.

**Product Guide**
- **Finish:** Matt
- **Colour:** 7,000 available
- **Pack size:** 5Ltr
- **Type:** Water Based

**Key Benefit**
Achieves class 1 of ISO 11998 at 10,000 scrubs - a tough, washable and scrubable matt finish

Acrylic Durable Eggshell

A premium quality tough mid-sheen finish which resists stains and is easily cleaned.

**Product Guide**
- **Finish:** Eggshell
- **Colour:** 16,000 available
- **Pack size:** 2.5Ltr & 5Ltr
- **Type:** Water Based

**Key Benefit**
A wipeable finish resistant to condensation and stains - ideal for kitchens and bathrooms

Acrylic Durable Matt

A premium quality matt emulsion with outstanding durability for use on interior walls and ceilings.

**Product Guide**
- **Finish:** Matt
- **Colour:** 16,000 available
- **Pack size:** 2.5Ltr, 5Ltr & 10Ltr
- **Type:** Water Based

**Key Benefit**
A highly durable paint that can be wiped clean

Dry Lining Paint

A quality emulsion paint formulated for direct application to dry lining board.

**Product Guide**
- **Finish:** Matt
- **Colour:** 7,000 available
- **Pack size:** 10Ltr
- **Type:** Water Based

**Key Benefit**
Creates a uniform finish over dry lining boards and jointing compounds
Jonmat Premium Contract Matt

An economical matt emulsion for use on new plaster.

Product Guide

- Finish: Matt
- Colour: 7,000 available
- Pack size: 5Ltr, 10Ltr & 15Ltr
- Type: Water Based

Key Benefit: Allows fresh plaster to dry out to help avoid cracking

Vinyl Silk

A mid sheen emulsion designed for interior use on walls and ceilings.

Product Guide

- Finish: Silk
- Colour: 16,000 available
- Pack size: 1Ltr, 2.5Ltr, 5Ltr & 10Ltr
- Type: Water Based

Key Benefit: A wipeable sheen finish, ideal over wall coverings

Ulta High Opacity Matt

A superior matt emulsion paint which gives the appearance of a two coat application in one.

Product Guide

- Finish: Matt
- Colour: 7,000 available
- Pack size: 5Ltr
- Type: Water Based

Key Benefit: Ideal for covering dark contrasting colours

Vinyl Soft Sheen

A quality soft sheen emulsion designed for interior use on walls and ceilings.

Product Guide

- Finish: Mid sheen
- Colour: 16,000 available
- Pack size: 1Ltr, 2.5Ltr, 5Ltr & 10Ltr
- Type: Water Based

Key Benefit: A mild sheen finish which can be wiped clean
TRIM PRODUCTS

Painting interior trim can help protect vital areas of your room and ensure a bold design statement is made. It is crucial for your customer to have a wide variety of trim products to choose from.

Johnstone’s is on hand to provide an unbeatable selection of interior trim products. Ranging from the Johnstone’s Satin Finish to Professional Gloss, ensuring a finish that will stand the test of time.

The jewel in Johnstone’s interior trim range is the Aqua system, which includes a Gloss, Satin and Undercoat, offering you a water based product that applies more like a traditional solvent based product. The Aqua system is quick drying, offers a great sheen level, fantastic coverage and excellent durability, whilst being low in odour and it stays whiter for longer.

### The Aqua System...

A Water Based Finish that offers:

- **Application**: Applies more like a solvent based finish.
- **Improved Application**: A longer wet edge time allowing for easier application.
- **Stays Whiter for Longer**: Compared to solvent based finishes.
- **Water Based**: Low odour and friendlier to the environment.
- **Great Finish**: Compared to other water based trim products.

---

### WATER BASED vs SOLVENT BASED

**Water Based System**

Water Based Aqua products ensure that the job can be completed to the high standard you would expect, saving you time and money.

**Solvent Based System**

Solvent Based products offer you all the traditional benefits you have come to expect but do not offer the long term cost savings compared to the quicker to recoat water based equivalents.

*Under normal drying conditions*
Aqua Water Based Gloss

A high sheen finish formulated to give similar application characteristics to a traditional solvent based gloss.

**Product Guide**

- **Finish:** Gloss
- **Colour:** 16,000 available
- **Pack size:** 1Ltr, 2.5Ltr & 5Ltr
- **Type:** Water Based

**Key Benefit**

A high gloss, quick drying finish that stays whiter for longer compared to a solvent based gloss.

---

Aqua Water Based Satin

A satin finish which looks, feels and applies more like a solvent based satinwood.

**Product Guide**

- **Finish:** Satin
- **Colour:** 16,000 available
- **Pack size:** 1Ltr, 2.5Ltr & 5Ltr
- **Type:** Water Based

**Key Benefit**

Excellent flow to leave a great finish that stays whiter for longer than a solvent satinwood.

---

Aqua Water Based Undercoat

A quick drying undercoat for use with the Aqua and solvent based trim topcoat products.

**Product Guide**

- **Finish:** Matt
- **Colour:** 16,000 available
- **Pack size:** 1Ltr, 2.5Ltr & 5Ltr
- **Type:** Water Based

**Key Benefit**

Obliterating and quick drying to offer a smooth finish for overcoating.
FEEL THE DIFFERENCE

Acrylic Gloss

A water based gloss for use over wood and metal which is quick drying and low odour.

Professional Gloss
A traditional hardwearing solvent based paint offering a high gloss finish with excellent opacity and coverage.

Product Guide
- **Finish:** Gloss
- **Colour:** 16,000 available
- **Pack size:** 0.5Ltr, 1Ltr, 2.5Ltr & 5Ltr
- **Type:** Solvent Based

Key Benefit: Offers a durable high gloss finish

Ultra Gloss
A premium quality gloss with excellent opacity and film build.

Product Guide
- **Finish:** Gloss
- **Colour:** Brilliant White
- **Pack size:** 1Ltr, 2.5Ltr & 5Ltr
- **Type:** Solvent Based

Key Benefit: Ideal for new work projects over Ultra Undercoat

Professional Undercoat
A solvent based undercoat with excellent opacity and obliteration, ideal for use with Professional Gloss.

Product Guide
- **Finish:** Matt
- **Colour:** 16,000 available
- **Pack size:** 0.5Ltr, 1Ltr, 2.5Ltr & 5Ltr
- **Type:** Solvent Based

Key Benefit: Ideal for use with all Johnstone's solvent based top coats

Ultra Undercoat
A top quality undercoat developed to provide excellent opacity and coverage.

Product Guide
- **Finish:** Matt
- **Colour:** Brilliant White
- **Pack size:** 1Ltr, 2.5Ltr & 5Ltr
- **Type:** Solvent Based

Key Benefit: Provides a great base for finishing with Ultra Gloss
**Eggshell**

A hard wearing solvent based eggshell finish with excellent opacity and coverage.

**Product Guide**
- **Finish:** Eggshell
- **Colour:** 16,000 available
- **Pack size:** 0.5L, 1L, 2.5L & 5L
- **Type:** Solvent Based

**Key Benefit**
An excellent mid sheen finish for use on interior wood and metal

---

**Non-Drip Gloss**

A tough wearing drip resistant gloss that provides a great finish.

**Product Guide**
- **Finish:** Gloss
- **Colour:** Brilliant White
- **Pack size:** 1L & 2.5L
- **Type:** Solvent Based

**Key Benefit**
Provides an easy to apply and durable high gloss finish

---

**Satin Finish**

A hard wearing solvent based satin finish with excellent opacity and coverage.

**Product Guide**
- **Finish:** Satin
- **Colour:** 16,000 available
- **Pack size:** 1L & 2.5L
- **Type:** Solvent Based

**Key Benefit**
A durable satin finish for use on interior wood and metal

---

**Joncryl Water-Based Primer Undercoat**

An acrylic based primer and undercoat in one, offering high covering power.

**Product Guide**
- **Finish:** Matt
- **Colour:** White
- **Pack size:** 1L, 2.5L & 5L
- **Type:** Water Based

**Key Benefit**
Suitable for use over new or bare wood and walls
FLOORING PRODUCTS

Selecting the right product for the job is absolutely crucial when selecting a floor paint; in order to get the balance between practicality, safety and a quality finish.

Johnstone’s range of floor paints is led by the Anti Slip Flortred product; with its highly durable semi-gloss finish, which is slip resistant ensuring that slips in the workplace are kept to a minimum. Resistant to mild chemicals, water, oil and grease, this product is perfect for use on concrete, steel and wooden flooring in areas with high slip risk such as doorways, walkways, ramps and steps.

Also in the range are Johnstone’s 2 Pack Epoxy Floor Paints, Quick Dry Floor Paint and Road Marking Paint, ensuring you have everything you need to keep floors protected for longer.

METAL PRODUCTS

The Johnstone’s Metal Defence System has been developed to maximise the life of metal surfaces as well as create an eye catching finish with a wide range of colours available.

Coating metal surfaces is key in avoiding the onset of rust and corrosion which can deteriorate substrates over time, as well as causing them to look tired and degraded. Applying the Johnstone’s Metal Defence System coatings will help to ensure that metal surfaces will be given long term protection from the corrosion as well as unleashing new life into old metal.

Available in both water based and solvent based systems, the Metal Defence System offers full choice and flexibility, and takes the work out of choosing the right coating to ensure lasting metal protection.

Correctly preparing a metal surface ready to paint will ensure excellent adhesion of a coating to the surface which will allow for maximum protection. The Metal Defence System range offers the products required for all metal surfaces to ensure that they can be prepared and made ready for coating.

PROJECT: Portsmouth Football Club
Smooth Metal Paint was used to protect the metal barriers in the lower North and West Stands and help restore Portsmouth F.C. S Fenton Park stadium to its former glory.

**Mordant Solution**

A pre-treatment for galvanised steel which converts the surface nature to one which ensures excellent adhesion.

**Product Guide**

- **Finish:** n/a
- **Colour:** Blue
- **Pack size:** 5Ltr
- **Type:** Solvent Based

**Key Benefit**
Prepares galvanised surfaces for coatings

---

**Quick Drying Metal Primer**

A water based, anti-corrosive metal primer that offers excellent adhesion and lasting protection.

**Product Guide**

- **Finish:** Eggshell
- **Colour:** White
- **Pack size:** 2.5Ltr
- **Type:** Water Based

**Key Benefit**
Ideal for priming under Johnstone’s Quick Drying Steel & Cladding Topcoat

---

**Cleaner & Degreaser**

Designed as a degreasing pre-treatment for contaminated surfaces prior to painting.

**Product Guide**

- **Finish:** n/a
- **Colour:** Clear
- **Pack size:** 5Ltr
- **Type:** Water Based

**Key Benefit**
Excellent for degreasing oily surfaces prior to painting.

---

**Quick Drying Steel & Cladding Topcoat**

An anti-corrosive finish designed for coating new and previously painted metal and profile cladding.

**Product Guide**

- **Finish:** Satin
- **Colour:** 10,000 available
- **Pack size:** 5Ltr
- **Type:** Water Based

**Key Benefit**
Ideal for spraying over large internal as well as external metal areas
Quick Dry Zinc Phosphate Primer

A wide ranging, quick drying, single pack anti-corrosive primer for steel.

**Product Guide**

- **Finish:** Matt
- **Colour:** White, Grey & Red Oxide
- **Pack size:** 2.5Ltr & 5Ltr
- **Type:** Solvent Based

**Key Benefit**

Suitable for use under a wide variety of conventional finishes offering excellent adhesion.

Steel & Cladding Semi-Gloss Topcoat

A steel and cladding finish formulated to provide long lasting protection against corrosion on metal.

**Product Guide**

- **Finish:** Semi-Gloss
- **Colour:** 16,000 available
- **Pack size:** 5Ltr
- **Type:** Solvent Based

**Key Benefit**

Offers excellent anti-corrosive properties with great adhesion to pretreated steel or aluminium.

Single Pack Primer

A fast drying, single pack, anti-corrosive primer for use under a variety of finishes.

**Product Guide**

- **Finish:** Matt
- **Colour:** Light Grey
- **Pack size:** 5Ltr
- **Type:** Solvent Based

**Key Benefit**

Offers excellent anti-corrosive properties with great adhesion to pretreated steel or aluminium.

High Build Zinc Rich Primer

A rust inhibiting primer for use on iron and steel. Suitable as a primer or a finish coat.

**Product Guide**

- **Finish:** Matt
- **Colour:** Grey
- **Pack size:** 1Ltr & 5Ltr
- **Type:** Solvent Based

**Key Benefit**

Ideal for galvanised and ferrous metal surfaces.
Smooth Metal Paint

A primer and topcoat in one, which can be applied direct to bare, previously painted or rusted surfaces.

**Product Guide**
- **Finish:** Semi Gloss
- **Colour:** 10,000 available
- **Pack size:** 0.8Ltr & 2.5Ltr
- **Type:** Solvent Based

**Key Benefit**
Offers 5 years to first maintenance, which vastly reduces maintenance costs.

To achieve the 8 year life to first major maintenance, 3 coats of Smooth Metal Paint must be applied in accordance with a project specific Johnstone's Technical Specification and BS 6150, 2006 Code of Practice for Painting Buildings.

Micaceous Iron Oxide

A high build, urethane modified alkyd with micaceous iron oxide for ultimate protection for structural steel.

**Product Guide**
- **Finish:** Matt
- **Colour:** Silver & Natural [Dark Grey]
- **Pack size:** 5Ltr
- **Type:** Solvent Based

**Key Benefit**
Supreme weatherability and UV resistance

Aluminium Paint

A coating for use on prepared metal surfaces such as storage tanks, ducting and pipe work.

**Product Guide**
- **Finish:** Metallic
- **Colour:** Silver
- **Pack size:** 2.5Ltr & 5Ltr
- **Type:** Solvent Based

**Key Benefit**
Can withstand high temperatures of up to 150°C

Agricultural Oxide Paint

A protective coating for interior and exterior use on most metal surfaces offering excellent weather resistance.

**Product Guide**
- **Finish:** Semi Gloss
- **Colour:** Grey, Red & Green
- **Pack size:** 5Ltr
- **Type:** Solvent Based

**Key Benefit**
Offers excellent weather resistance
HYGIENE PRODUCTS

Reducing the spread of bacteria that can lead to infection is essential in healthcare environments and that’s why Johnstone’s Hygiene Coatings range is the first stop for decorators.

Developed to help prevent the spread of harmful bacteria that can lead to E. coli and ‘super bugs’ like MRSA. Johnstone’s Microbarr Anti Bacterial paints are water based, low odour formulations which provide tough, washable surfaces. Using Silver Ion technology, Johnstone’s Microbarr Anti Bacterial Coatings provide hygienic solution for interior surfaces.

Also in the Johnstone’s Hygiene Coatings range is the Anti-Mould Acrylic and Stop Mould, which are suitable for use on new and aged plaster in damp areas and help prevent paint surfaces being damaged by mould growth.
**Quick Reference Guide for Hygiene Products**

**HTM 56 Category 1-3**
Johnstone’s Microbarr Anti Bacterial Coatings have been developed for use in areas where hygienic protection is required.

<table>
<thead>
<tr>
<th>HTM 56 Classification</th>
<th>Surface Areas</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Category 1</strong></td>
<td>Scrub rooms, theatres &amp; major treatment rooms</td>

---

**Microbarr Anti Bacterial Acrylic Matt**

A durable coating developed to inhibit the growth of bacteria, such as MRSA and E.coli.

**Product Guide**

- **Finish:** Matt
- **Colour:** 16,000 available
- **Pack size:** 5Ltr
- **Type:** Water Based

**Key Benefit**

Provides a tough, washable surface ideal for areas subject to frequent cleaning

---

**Microbarr Anti Bacterial Acrylic Eggshell**

A tough acrylic based coating designed to inhibit the growth of bacteria, such as MRSA and E.coli.

**Product Guide**

- **Finish:** Eggshell
- **Colour:** 16,000 available
- **Pack size:** 5Ltr
- **Type:** Water Based

**Key Benefit**

Provides a durable and washable surface ideal for areas subject to robust cleaning
2 Pack Epoxy Water Based Wall Coating

A two pack, durable semi-gloss finish for use on interior walls, offering a tough abrasion resistant film.

**Product Guide**
- **Finish:** Semi Gloss
- **Colour:** White
- **Pack size:** 2.5Ltr (Base 2.1Lr + Activator 0.5Ltr)
- **Type:** Water Based

**Key Benefit**
Ideal for areas with high contamination and is resistant to mild cleaning chemicals and solvents.

Stopmould

Formulated for areas subjected to conditions which are conducive to mould growth.

**Product Guide**
- **Finish:** Matt
- **Colour:** Brilliant White & Magnolia
- **Pack size:** 2.5Ltr & 5Ltr
- **Type:** Water Based

**Key Benefit**
Suitable for use on new and aged plaster in damp areas.

Anti-Mould Acrylic

A durable coating for use on walls & ceilings for protection against algal and fungal growth.

**Product Guide**
- **Finish:** Matt
- **Colour:** 7,000 available
- **Pack size:** 2.5Ltr & 5Ltr
- **Type:** Water Based

**Key Benefit**
Inhibits mould and algal growth, ideal for use in food preparation areas.

Sterilisation Wash

A water based solution formulated for the control and treatment of fungal and algal growth prior to painting.

**Product Guide**
- **Finish:** n/a
- **Colour:** Clear
- **Pack size:** 5Ltr
- **Type:** Water Based

**Key Benefit**
Ideal for use on walls and ceilings both internally and externally.
ANTI GRAFFITI PRODUCTS

Public buildings are prime targets for vandalism through the use of spray paints, inks, marker pens and paints. Removing marks can be an expensive process, which is why Johnstone’s range of Anti Graffiti coatings provides the ideal solution.

Johnstone’s Anti Graffiti Coatings have been formulated to provide a permanent water-based, easily cleaned Anti Graffiti finish for all types of internal and external surfaces, including brick, masonry, natural stonework and previously painted surfaces. On application it provides a seamless tile-like surface enabling easy removal of graffiti, grease and other contaminants.

Key Benefit
Provides a tough, washable surface ideal for areas subject to frequent cleaning
FLAME RETARDANT PRODUCTS

To simplify the specification process and reduce the uncertainty surrounding paint for redecoration over existing paint coatings, Johnstone's offers two Flame Retardant Systems.

The Flame Retardant Top Coats including Durable Matt and Acrylic Eggshell are to be applied as a minimum of a two coat system and are designed to inhibit the spread of flame. Both products are ideal for application onto new unpainted ceiling and broadwall surfaces, as well as for painting over sound existing coatings with up to 10 like for like paint layers, maintaining a surface at Class 1 or Class 0.

The Intumescent Upgrade System is one of only a few complete solutions on the market today, which has been specifically formulated and fully tested in accordance with BS476 Parts 6&7. The 4 coat system allows ceiling and broadwall surfaces to be upgraded from the worst case Class 4 substrate to the highest specification for surface spread of flame and fire propagation, Class 0, providing that the existing substrate is sound for redecoration.
Flame Retardant
Durable Matt

A flame retardant top coat designed to inhibit the spread of flame over broadwall surfaces.

**Product Guide**

- **Finish:** Matt
- **Colour:** 16,000 available
- **Pack size:** 5Ltr
- **Type:** Water Based

**Key Benefit**
A two coat system which maintains an existing surface at Class 1 or Class 0

Flame Retardant
Acrylic Eggshell

A flame retardant top coat designed to inhibit the spread of flame over broadwall surfaces.

**Product Guide**

- **Finish:** Eggshell
- **Colour:** 16,000 available
- **Pack size:** 5Ltr
- **Type:** Water Based

**Key Benefit**
A two coat system which maintains an existing surface at Class 1 or Class 0
Flame Retardant Intumescent Upgrade 2 Pack Primer

An adhesion promoting primer for use as part of the Johnstone’s Intumescent Upgrade 4 Coat System.

Product Guide
- Finish: Matt
- Colour: White
- Pack size: 5Ltr (Base 4Ltr + Activator 1Ltr)
- Type: Water Based

Key Benefit: Contact the PPG Extra team for detailed advice and specifications.

Flame Retardant Intumescent Upgrade Base Coat

A fast acting medium textured intermediate coat for use as part of the Johnstone’s Intumescent Upgrade 4 Coat System.

Product Guide
- Finish: Medium textured
- Colour: White
- Pack size: 10Ltr
- Type: Water Based

Key Benefit: Contact the PPG Extra team for detailed advice and specifications.

Flame Retardant Intumescent Upgrade Acrylic Matt

A high quality, hard wearing top coat for use as part of the Johnstone’s Intumescent Upgrade 4 Coat System.

Product Guide
- Finish: Matt
- Colour: 7,000 available
- Pack size: 5Ltr
- Type: Water Based

Key Benefit: Contact the PPG Extra team for detailed advice and specifications.

Flame Retardant Intumescent Upgrade Acrylic Eggshell

A high quality, hard wearing top coat for use as part of the Johnstone’s Intumescent Upgrade 4 Coat System.

Product Guide
- Finish: Eggshell
- Colour: 7,000 available
- Pack size: 5Ltr
- Type: Water Based

Key Benefit: Contact the PPG Extra team for detailed advice and specifications.
SPECIALIST PRODUCTS

There will always be a time when you’re on a job that requires a product that’s a little bit out of the ordinary and that’s where Johnstone’s Specialist Coatings products come in.

The range boasts contrasting qualities, but all offer the same level of lasting finish and performance required to do the project.

Johnstone’s Black Bitumen, Flat Oil Paint, Matt Blackboard Paint, Damp Proof Paint and Heavy Duty Glaze make up the range and offer a variety of coatings for a wide range of applications.
Quick Dry Matt
Blackboard Paint

A smooth, non reflective black paint formulated for interior use where a durable flat matt finish is required.

**Product Guide**

- **Finish:** Matt
- **Colour:** Black
- **Pack size:** 1Ltr & 2.5Ltr
- **Type:** Water Based

**Key Benefit**
A non-reflective dead flat matt finish suitable for a variety of applications

---

Anti-Condensation Paint

A thick matt paint for use on interior walls which significantly reduces condensation.

**Product Guide**

- **Finish:** Matt
- **Colour:** Brilliant White
- **Pack size:** 6Ltr
- **Type:** Water Based

**Key Benefit**
Ideal for use in areas prone to high moisture

---

Flat Oil Paint

A traditional matt paint formulated for interior use on wood and metal surfaces.

**Product Guide**

- **Finish:** Matt
- **Colour:** Brilliant White
- **Pack size:** 2.5Ltr & 6Ltr
- **Type:** Solvent Based

**Key Benefit**
Provides an excellent smooth even finish

---

Damp Proof Paint

A Pliolite® resin based paint for use over damp walls to prime and seal in areas such as cellars.

**Product Guide**

- **Finish:** Matt
- **Colour:** White
- **Pack size:** 6Ltr
- **Type:** Solvent Based

**Key Benefit**
Can be left as a finish on its own or can be over painted with Anti-Mould Acrylic
Heavy Duty Glaze

A tough durable coating for added surface protection in high traffic environments.

Product Guide
- Finish: Gloss
- Colour: Clear
- Pack size: 5Ltr
- Type: Water Based

Key Benefit
Can be applied over all Johnstone’s emulsion paints

Solar Reflective Paint

A solar reflective paint ideal for use on roofs exposed to direct sunlight.

Product Guide
- Finish: Semi Gloss
- Colour: Silver
- Pack size: 5Ltr
- Type: Solvent Based

Key Benefit
A one coat application that reduces heat build up

Black Bitumen

A corrosion resistant waterproofing paint for exterior use on metal and concrete surfaces.

Product Guide
- Finish: Semi Gloss
- Colour: Black
- Pack size: 2.5Ltr & 5Ltr
- Type: Solvent Based

Key Benefit
Ideal for waterproofing exposed surfaces
PRIMER PRODUCTS

All decorators know the importance of using the correct primer within the overall scheme of a project. Primer application will suitably prepare a surface to be painted, ensuring improved adhesion of the paint and prevent unsightly stains bleeding through the finish coat.

Johnstone’s boasts an extensive range of primers fit for any job, with the Ultra Primer Sealer proving to be one of the most popular. It is a high performance, quick drying primer sealer that offers good adhesion and seals porous surfaces.

Also forming a major part of Johnstone’s range of Primers is the Advanced Stain Block Primer, which is the perfect solution for containing unsightly stains caused by nicotine, smoke, marker pen, wax crayon, tannin and graffiti.
# Quick Reference Guide for Primer Products

## Why Prime?

1. Helps reduce the number of finish coats
2. Promotes an even and consistent finish colour
3. Prevents dark colours from showing through
4. Extends the durability of the topcoat
5. Prevents dark colours from showing through
6. Helps paint adhere to difficult surfaces
7. Prevents corrosion and decay

## Ultra Primer Sealer - the everyday primer

**Best For:**
- Ceramic and glazed tiles, wood panelling, glossy painted surfaces,
- PVC piping, wall coverings, masonry,
- Ceiling tiles, pencil, lipstick, wax crayon and odours.

Ultra Primer Sealer

A quick drying primer sealer manufactured from quality pigments and tough acrylic resin.

**Product Guide**
- **Finish:** Matt
- **Colour:** Brilliant White
- **Pack Size:** 1Ltr, 2.5Ltr & 5Ltr
- **Type:** Water Based

**Key Benefit**
A 3 in 1 primer, sealer and stain blocker, ideal for everyday use

Advanced Multi-Surface Primer

An ultimate adhesion primer with outstanding grip to difficult surfaces and has anti-corrosive properties.

**Product Guide**
- **Finish:** Eggshell
- **Colour:** White
- **Pack Size:** 1Ltr & 6Ltr
- **Type:** Water Based

**Key Benefit**
Excellent adhesion to non-porous surfaces such as glazed tiles, melamine and galvanised steel

Stain Block Primer

A Ploway® based low odour stain blocker which prevents stains bleeding through from the substrate.

**Product Guide**
- **Finish:** Matt
- **Colour:** White
- **Pack Size:** 1Ltr & 5Ltr
- **Type:** Solvent Based

**Key Benefit**
Ideal for locking in water stains

Advanced Stain Block Primer

The ultimate, shellac based, stain and odour blocker for use on heavily stained surfaces.

**Product Guide**
- **Finish:** Matt
- **Colour:** Brilliant White
- **Pack Size:** 1Ltr & 2.5Ltr
- **Type:** Solvent Based

**Key Benefit**
Shellac based to seal problematic surfaces and prevent bleeding, staining and odours
Universal Primer

A solvent based primer for use on wood, metal and masonry.

Product Guide

- **Finish**: Matt
- **Colour**: White & Red Oxide
- **Pack Size**: 1Ltr, 2.5Ltr & 5Ltr
- **Type**: Solvent Based

**Key Benefit**: Suitable for preparation of multiple surface types

---

Wood Primer

A solvent based primer for soft wood and non-oily hard woods suitable for interior and exterior use.

Product Guide

- **Finish**: Matt
- **Colour**: White
- **Pack Size**: 1Ltr, 2.5Ltr & 5Ltr
- **Type**: Solvent Based

**Key Benefit**: For use on softwood and non-oily hardwood

---

Alkali Resisting Primer

A primer which can be used as a sealer on powdery surfaces, concrete, cement, unpainted plaster and render.

Product Guide

- **Finish**: Matt
- **Colour**: White
- **Pack Size**: 2.5Ltr & 5Ltr
- **Type**: Solvent Based

**Key Benefit**: Binds powdery surfaces and resists alkali attacks

---

Aluminium Wood Primer

Provides a barrier against the oily exudations of naturally resinous and scorched timber.

Product Guide

- **Finish**: Matt
- **Colour**: Grey
- **Pack Size**: 1Ltr & 5Ltr
- **Type**: Solvent Based

**Key Benefit**: Ideal for sealing smoke and scorched damaged timber
PRIMERS
LOCK IN STAINS, SEAL SURFACES, ENHANCE ADHESION, AND PREPARE FOR THE PERFECT FINISH COAT.

PAINT TO BE PROUD OF

MDF Primer

A water based primer formulated for use on medium density fibreboards and other wood composites.

Product Guide

- Finish: Matt
- Colour: White
- Pack Size: 1Ltr, 2.5Ltr & 5Ltr
- Type: Water Based

Key Benefit
Excellent adhesion and seals routed MDF

Ultra Primer & Finish

A water based primer and finish ideal for use over larger surface areas and provides a suitable base for finishing.

Product Guide

- Finish: Eggshell
- Colour: Brilliant White
- Pack Size: 10Ltr
- Type: Water Based

Key Benefit
Excellent spray application over multiple surface types

Customer Support 01924 354354
ESSENTIALS

Preparation is key and can help ensure that a paint coating will provide lasting protection for a surface.

Preparing surfaces to be painted using the products available in the Johnstone’s Essentials range will help to ensure that they are free of grease, oil and any other contaminants. This will create an ideal surface to be coated and will help ensure firm adhesion to prevent flaking and subsequent corrosion.
TC1 Thinner & Cleaner

A fast evaporating thinner and cleaner that is ideal for use with various Johnstone's Performance Coatings products.

Product Guide

Key Benefit

Excellent for degreasing oily surfaces prior to painting.
EXTERIOR PRODUCTS

Johnstone’s range of Stormshield exterior paints have been developed for undertaking the arduous job of protecting the exterior of buildings.

The key requirement of an exterior coating is to provide a long lasting protective barrier to preserve the surface against the harshest of conditions.

All kinds of pollution contribute to the deterioration of building exteriors, causing irreversible damage to the surface. Johnstone’s Stormshield paints have been formulated to protect against:

- UV light
- Dirt accumulation
- Mould and algae

Many products in the Johnstone’s Stormshield range have BBA (British Board of Agrément) approval. Trim and broadwall products carrying the BBA logo have undergone rigorous independent testing and have been awarded life expectancies of more than 8, 10 or 15 years.
# Quick Reference Guide for Stormshield Products

## Product: Self-Cleaning Masonry

**Case Studies:**
Haydock Park Racecourse has a clean and bright new look with Johnstone's Self-Cleaning Masonry paint.

## Product: Pliolite® Based Masonry Finish

**Case Studies:**
Plitson Wharf, Maryport needed exterior coatings to provide outstanding durability and resistance to adverse weather conditions.

## Product: Smooth Masonry

**Case Studies:**
Lowlands, a Grade II listed mansion, boasts a vibrant cultural heritage which has now been preserved for future generations with Johnstone's Smooth Masonry paint.

**Case Studies:**
Quebec House, Portsmouth is one of the oldest wooden structures in England and faces some of the country’s most extreme weather conditions.

**Case Studies:**
Saxens Farm in Heywood, Clitham is set to keep its fresh new look for ever longer thanks to the use of Johnstone's Smooth Masonry paint.

**Life Cycle:**
- 15 years
Self-Cleaning Masonry

Formulated with ground breaking nano technology to give an extremely smooth and dirt resistant finish.

**Product Guide**
- Finish: Matt
- Colour: See Colour Guide
- Pack Size: 5Ltr & 10Ltr
- Type: Water Based

Key Benefit
- Exterior surfaces stay cleaner for longer. Life expectancy 15 years

---

Pliolite® Based Masonry Finish

A solvent based paint that can be applied in temperatures of -5°C and is shower resistant in 20 minutes.

**Product Guide**
- Finish: Matt
- Colour: See Colour Guide
- Pack Size: 5Ltr
- Type: Solvent Based

Key Benefit
- All year application. Life expectancy 15 years

---

Smooth Masonry

A premium quality acrylic resin based coating for exterior use on cement, rendering, brick and concrete.

**Product Guide**
- Finish: Matt
- Colour: See Colour Guide
- Pack Size: 2.5Ltr, 5Ltr & 10Ltr
- Type: Water Based

Key Benefit
- Resists dirt accumulation and offers excellent weather resistance. Life expectancy 15 years

---

Textured Masonry

A high quality fine textured water based acrylic resin masonry finish.

**Product Guide**
- Finish: Textured
- Colour: See Colour Guide
- Pack Size: 5Ltr
- Type: Water Based

Key Benefit
- Provides a fine sand textured finish that bridges hair-line cracks. Life expectancy 15 years

*Please refer to the Johnstone’s Trade Colour Guide for the colour range suitable for masonry coatings.
**Jontex High Build Textured Masonry**

A high build, heavily textured, one coat finish formulated for use on exterior surfaces.

**Product Guide**

- **Finish:** Textured
- **Colour:** Brilliant White, Magnolia & Country Cream
- **Pack Size:** 10Ltr
- **Type:** Water Based

**Key Benefit**

Offers long term protection to badly weathered masonry. Life expectancy 15 years.

---

**Quick Dry Stabilising Solution**

Binds friable, chalking and absorbent surfaces ensuring suitability for further decoration.

**Product Guide**

- **Finish:** Clear
- **Colour:** Clear
- **Pack Size:** 5Ltr
- **Type:** Water Based

**Key Benefit**

A quick drying stabilising formulation which can be over coated in 2-4 hours.

---

**Stabilising Solution**

Binds friable, absorbant and chalking substrates to produce a surface suitable for further decoration.

**Product Guide**

- **Finish:** Clear
- **Colour:** White & Clear
- **Pack Size:** 5Ltr
- **Type:** Solvent Based

**Key Benefit**

A stabilising formulation designed for use under masonry coatings.

---

**Water Seal**

A sealer for use over porous masonry surfaces to protect against water ingress.

**Product Guide**

- **Finish:** Clear
- **Colour:** Clear
- **Pack Size:** 5Ltr
- **Type:** Solvent Based

**Key Benefit**

Provides a water repellent surface whilst allowing the substrate to breathe.
Flexible Gloss

A flexible and microporous finish for increased durability performance over conventional gloss products.

Product Guide
- Finish: Gloss
- Colour: 16,000 available
- Pack Size: 2.5ltr
- Type: Solvent Based

Key Benefit
Offering up to 8 years life expectancy and is resistant to blistering and cracking

To achieve the 8 year life to first major maintenance Flexible Gloss must be applied in accordance with a project specific Johnstone’s Technical Specification and BS 6150, 2000 Code of Practice for Painting Buildings.

Flexible Satin

A flexible coating that is microporous and provides increased durability over conventional satin products.

Product Guide
- Finish: Satin
- Colour: 16,000 available
- Pack Size: 2.5ltr
- Type: Solvent Based

Key Benefit
Offering up to 8 years life expectancy and is resistant to blistering and cracking

To achieve the 8 year life to first major maintenance Flexible Satin must be applied in accordance with a project specific Johnstone’s Technical Specification and BS 6150, 2000 Code of Practice for Painting Buildings.

Flexible Primer Undercoat

A microporous primer and undercoat in one for use in conjunction with the Flexible Gloss and Flexible Satin topcoats.

Product Guide
- Finish: Matt
- Colour: 16,000 available
- Pack Size: 2.5ltr
- Type: Solvent Based

Key Benefit
Highly flexible coating to maintain lasting protection

To achieve the 8 year life to first major maintenance Flexible Primer Undercoat must be applied in accordance with a project specific Johnstone’s Technical Specification and BS 6150, 2000 Code of Practice for Painting Buildings.
EXTERNAL WALL INSULATION & RENDERS

Johnstone’s range of Stormshield External Wall Insulation (EWI) and Render products have been developed to provide lasting protection and insulation for the exterior of buildings.

External wall insulation is a system of components that can be applied on the outside of a building to insulate, protect and enhance it. Johnstone’s EWI systems are one of the best ways to protect a building and its residents from the elements. Our systems insulate properties, reduce energy costs and offer long term building protection.

Additionally, Johnstone’s offer a comprehensive range of high performance render systems for direct application to a diverse number of external substrates.

Many of the products in the Johnstone’s Stormshield EWI and render range have been certified by the BBA (British Board of Agrément), demonstrating a life expectancy of up to 30 years.
EWI SYSTEMS

Johnstone’s EWI Systems provide everything needed to install a fully BBA approved EWI solution including insulation, boards, fixings, profiles, basecoats and renders.

At least 35% of heat loss from a typical solid wall property can be through the wall. Our full systems provide significant thermal benefits as well as a high performance and long lasting render finish in a wide range of options.

![Typical EWI system configuration](image)

RENDER SYSTEMS

Johnstone’s render systems have been developed to offer the perfect solutions for external rendering on almost any masonry or carrier board substrate.

FINISH OPTIONS

Both EWI and render systems are offered in a wide range of finishes including silicone enhanced, full silicone, traditional scratch, dash and brick effect renders. We also supply brick slip systems for clients who require a fully authentic brick finish on a property. It’s also possible to finish our basecoats and cement renders with Johnstone’s Stormshield paints.

TRAINING

We offer full training and application programmes for EWI and render systems, just get in touch to find out more and to join our growing network of Johnstone’s approved installers.
### High Performance Insulation Panel Adhesive

**Product Guide**
- Colour: Grey
- Pack Size: 25kg

**Key Benefit**
Easy, high strength fixing of insulation panels to masonry substrates.

### High Performance Render Basecoat

**Product Guide**
- Colour: Grey
- Pack Size: 25kg

**Key Benefit**
Provides an all weather, tough and long lasting basecoat for use under render finishing coats.

### High Performance Key Coat Primer

**Product Guide**
- Colour: Grey
- Pack Size: 25kg

**Key Benefit**
Designed to prepare masonry and control the suction of substrates to promote adhesion of render systems.

### High Flexibility Render Basecoat

**Product Guide**
- Colour: Grey
- Pack Size: 25kg

**Key Benefit**
High performance basecoat with high adhesion, specially formulated for application to render carrier boards.
## Silicone Enhanced Render

**Product Guide**
- **Finish:** Matt
- **Colour:** 200+ colours available
- **Pack Size:** 25kg
- **AGG Size:** 1.0mm & 1.5mm

**Key Benefit**
BBA approved, highly durable all weather exterior render coating

## Full Silicone Render

**Product Guide**
- **Finish:** Matt
- **Colour:** 150+ colours available
- **Pack Size:** 25kg
- **AGG Size:** 1.0mm, 1.5mm & 2.0mm

**Key Benefit**
BBA approved highly durable all weather exterior coating with full silicone performance

## Silicone Enhanced Render Primer

**Product Guide**
- **Finish:** Matt
- **Colour:** 200+ colours available
- **Pack Size:** 15Ltr

**Key Benefit**
Primes and protects basecoat prior to application of the finishing render

## Full Silicone Primer

**Product Guide**
- **Finish:** Matt
- **Colour:** 150+ colours available
- **Pack Size:** 25kg

**Key Benefit**
Primes and protects basecoat prior to application of the finishing render
High Performance Dash Receiver Render

A cement based, fibre reinforced coloured render developed to create an ideal base for dashing aggregates.

**Product Guide**
- **Colour:** 14 colours available
- **Pack Size:** 25kg

**Key Benefit**
Provides a coloured render finish perfect for the application of dashing aggregates.

---

One Coat Render

A traditionally formulated sand, cement and lime render, modified for ease of application and workability.

**Product Guide**
- **Colour:** Grey
- **Pack Size:** 25kg

**Key Benefit**
For cost effective rendering of most masonry substrates.

---

High Performance Brick Effect Render

A cement based render that can be applied in 2 colours and cut to create a brick effect finish.

**Product Guide**
- **Colour:** 12 colours available
- **Pack Size:** 25kg

**Key Benefit**
Available as standard in a range of 12 mortar, stone and brick colours.

---

High Performance Scratch Render

A polymer modified through colour cement render formulated to offer a tough and weather resistant finish.

**Product Guide**
- **Colour:** 12 colours available
- **Pack Size:** 25kg

**Key Benefit**
A high performance, low maintenance scratch render finish.
High Performance
Brick Slip Pointing Mortar

A vapour permeable, polymer modified mortar for pointing brick slips and to repair existing brick pointing.

Product Guide
- Colour: 6 colours available
- Pack Size: 25kg

Key Benefit
High performance coloured pointing mortar for brick and stone slips

High Performance
Brick Slip Adhesive

A cement based adhesive that provides excellent adhesion for brick slips to most substrates.

Product Guide
- Colour: Grey
- Pack Size: 25kg

Key Benefit
High grab adhesive for easy fixing of brick and stone slips
